Profile

I'm a Full Stack Web Developer who loves creating user-friendly websites. I use React.js for the front end and Node.js, MongoDB and Express.js for Backend and I'm good with databases like MongoDB and MySQL and also I specialize in building user-friendly websites using tools like HTML, CSS, and JavaScript

Experience

2023-Present

Intern at

Almabetter

Developed web applications using HTML, CSS and JavaScript.
Designed efficient database schemas to store data from the web applications.
Researched and implemented new technologies to improve development processes.
Collaborated with other developers on code reviews, bug fixes, and feature development.
Optimized existing code base for better performance and scalability.
Integrated third-party APIs into the web applications for additional features and functionality.
Troubleshooted complex issues related to front-end, back-end, databases, servers.
